

BAMBOO CRAFT WORKSHOP

The Career Placement Cell, in collaboration with the Nagaland Pollution Control Board, organized a Bamboo Craft Workshop on February 23, 2024, at the college auditorium. The workshop aimed to educate students on bamboo craft techniques, highlight the importance of bamboo, and foster skills for potential self-employment opportunities.

The workshop commenced at 11:00 AM and concluded at 3:00 PM, with active participation from 136 students. Facilitated by Mr. Ruovilhokho, along with eight trainers, the session proved to be an enriching experience for all attendees.

Throughout the workshop, students engaged in practical sessions, learning to craft various items such as cups, brooms, waste bins, and frames using bamboo. Mr. Ruovilhokho and his team provided valuable insights into bamboo's significance, emphasizing its sustainable properties and versatile applications.

The interactive nature of the workshop allowed students to grasp fundamental techniques while igniting their entrepreneurial spirit. By exploring bamboo craft, participants gained practical skills that could potentially lead to future self-employment ventures.

Overall, the Bamboo Craft Workshop was a resounding success, offering students a unique learning opportunity and equipping them with valuable skills for the future.
